Grant

On cleared payment, GroupCore Ltd grants the named organisation a non-exclusive, perpetual licence to play the listed recordings in public as background music for customers and staff at the single UK premises shown. The grant covers the rights GroupCore controls or is authorised to license in the recordings and underlying works for that use.

Playlists and local copies

The organisation may download the recordings and keep local playback and backup copies for this premises, play them repeatedly, and combine them in playlists with its own announcements. Use with any player is permitted. There is no renewal charge or expiry date for this grant.

Scope

The licence applies to the named organisation, address and recordings. It does not cover another site, transfer or resale of the files or licence, public download or redistribution, broadcast or streaming, use in advertising or video, or use as music on hold.

Other music

Other recordings and uses require their own permissions. Buying a track or paying for a streaming subscription elsewhere usually gives personal listening rights. Check whether the supplier expressly includes public playback and whether TheMusicLicence is required for music used at the premises.

Paid player editions

On confirmed payment, the named organisation may use the purchased player edition at the single UK premises shown. The fee is one-off. The software licence covers the edition shown on the receipt. Music, announcements and other imported material require their own permissions. The player licence ends if its payment is refunded or reversed.

Payment and law

This licence takes effect once payment is confirmed. If payment for a track is refunded or reversed, its licence ends. The law of England and Wales governs these terms. Contact GroupCore through area63.co.uk for help with an order or licence.
